Would you like to know what YOU can do to save our planet?

Then come and visit the fascinating world of the United Nations!

2010 is the international year of biodiversity, so visit the UN and find out all about protected animals. ***What can you do to protect dolphins, bears and their friends?***

This is what you can expect from your visit:

We will have a look at the colourful flags of the 192 UN member states and we'll talk about what the UN is and does and how it helps people to live together in peace and harmony.

Then you can start your journey through the rainforest, the desert and the ocean in order to save marine life and bears, to calculate your ecological footprint, and to learn how to save the planet.

Finally you can colour a postcard of an endangered animal and mail it with a special UN-stamp!
